Secret Universe Lecture Series

- truths not taught in the schools
- truths not published in the journals
- truths concealed in plain sight

This gorilla is:

1. Surmounting an obstacle in his race to the next red light.
2. Searching for toilet paper during the COVID19 crisis.
3. Delivering holes to a cheese factory.
4. Looking for secret truths concealed in plain sight.

$$\frac{E}{\left(\frac{1}{c}\right)^1} = \frac{m}{\left(\frac{1}{c}\right)^3}$$

New meanings can be found in this form of $E = mc^2$

- motionless motion
- non-directional motion
- the explanation for gravity
- globular cluster stability
- galactic rotation explained
- EPR paradox resolved
- Twin Paradox resolved
- the true speed of gravity
- cosmic background radiation
- reactionless “field propulsion”
